

To whom it may concern:

Ronald Shawver has worked with me as a consultant for the past 3 years. In that time, he has shown great skill in advising and installing professional sound systems and audio equipment. His natural ear for frequency response and his keen intellect on choosing the best equipment for any given audio situation, has made him a truly valuable asset. In addition, his skills as a musical artist give him a definite edge over and above most audio engineers.

I would recommend Ron for any and all applications involving sound and music, as to this day, I still call him for his advice and consultation.

**Sincerely,
Shawn M. Smith,
President.**
